## **I. INTRODUCTION & BACKGROUND**

The first 1,000 days are a time of tremendous potential and enormous vulnerability. How well or how poorly mothers and children are nourished and cared for during this time has a profound impact on a child’s ability to grow, learn and thrive.

An Initiative of FHI Solutions, we work in the U.S. and around the world to ensure women and children have the healthiest first 1,000 days. Our mission is to make the well-being of women and children in the first 1,000 days a policy and funding priority.

We are passionate about turning evidence into action and we use our deep understanding of the science and the issues to help shape policies that improve the lives of moms and babies in the U.S. and throughout the world. In Washington D.C. and in global capitals the world over, we make the case to policymakers, leaders and those who influence them that brighter futures begin with ensuring mothers and children everywhere have a thriving first 1,000 days. We create a sense of urgency for policymakers to act during a child’s first 1,000 days because we know that failure to do so can have lasting, irreversible consequences for children, their families and society.
